Dribuild

Oldfield School

Profile

School: Oldfield School

Year Group: 10

County: Bath

Partnership Commenced: March 2017

Projects Done: Mock interviews, Work experience, Careers Fair

Since they launched our partnership with Oldfield School under the 'Adopt a School' campaign, Dribuild have been able to support a number of children at the secondary school through various events.

They held an assembly where CITB Ambassador, Helene Cook and Company Director, Mike Holt spoke about the Construction Industry and why it's such a great industry to consider a career in. There was a Q & A afterwards followed by a photoshoot in the library for the official launch in the Press.

Dribuild went on to attend an event at Oldfield to carry out mock interviews. They enlisted the help of their recruitment company who sent a representative with all the right knowledge and experience in interview skills, he was able to give really helpful feedback. The School said that the event was very well received and provided an invaluable opportunity for the students to sit through an interview, which most of them had never done before.

Dribuild took on a young male student from Oldfield to spend a week with the company for work experience week. He learned a great deal about Construction and the various types of careers available in the industry. He spent time with specialists such as senior contracts managers, business development staff and site teams. He has become very interested and is now considering a career in design having spent a lot of time with Dribuild's Design Manager.

A careers fair has been planned for July which Dribuild has agreed to attend.

"It's a worthwhile scheme which has worked well in terms of PR for both the School and for Dribuild." Helene Cook

Dribuild were featured in a BBC Points West piece for CESW's Adopt a School Re-Launch in April 2017 and were filmed both at Oldfield School in Bath and also taking students on a site visit.
