

# Proposal CESW Academy

# Introduction

- CE already has CELL – This is an “awarding body”, like (Edexcel or City & Guilds) but to date only has fifteen regulated qualifications accepted by OFQUAL.
- Cell has four associated “**approved centres**” that deliver training but these are all in the Midlands.
- It has a variety of unregulated courses, this means not recognised by Ofqual but certified only by CELL. The quality of delivery would be monitored and fall under the CELL QA system.
- We don’t want to re-invent the wheel!
- So.....

# CESW – Academy

- We propose to start a *Local* CESW “**Approved Centre**”
- We would use the Institute of Leadership & Management (ILM) as the awarding body in addition to CELL, thus opening up many more formal OFQUAL Approved qualifications that meet the CE agenda.
- The Centre would act as a best practice training hub and utilise the expertise of its own membership – this means a variety of local training providers could work under the umbrella of the centre providing they meet the quality standards required by ILM or CELL.

# Example Training Offerings

- Delivery of “Off The Shelf” qualifications such as
  - Leadership and Management – Level 2 to Level 7
  - Service Improvement (Lean Construction) – Level 3 and Level 5
- Delivery of accredited “Bespoke” CESW accredited courses
  - BIM
  - Collaborative Planning
  - Lean Site Management
  - ?????????? Whatever you need.....
