

Collaborative

Procurement

Symposium

Thursday 28th January 2021

Come and join us for an insight into procurement at some of the region's major organisations:

The Nationwide Building Society
Dean Spencer, Head of Design & Build

The Southern Construction Framework
Kingsley Clarke, SCF Operations Lead
and Emma Bull, Senior Framework Manager

The Environment Agency
Steven Williams, Manager Portfolio Assurance

This online symposium will provide a unique opportunity to understand how each of these organisations make effective use of collaboration and procurement best practise to deliver projects faster, at lower whole-life cost, with higher quality and reliability.

We will be working with LeadersMeets on delivering this event. We are going to be using an alternative platform to Zoom called Hopin. This system will work much the same as Zoom and provides an engaging experience for delegates.

CONSTRUCTING EXCELLENCE
Swindon & Wiltshire Club
